DRY CHANGE RACE | NOVEMBER 2019

## 2019 WETDASHE CHALLENGE (OC6 dry-change relay races)

### FGPC'S ANNUAL HIGH-STAKES RELAY CIRCUIT

OC6 CREWS OF 9-18 PADDLERS CAN TEST SKILL  
AND ENDURANCE OVER A MULTI-TURN RELAY COURSE  
WITH OPTIONS TO SUIT EVERY SKILL LEVEL

#### OPTION 1: Chevron

Chevron teams commit to either 12km or 24km (4 or 8 x 3km relay laps) over one heat (morning or afternoon).

#### OPTION 2: Walrus

Walrus teams commit to 48km (16 x 3km relay laps) over two half days (48km teams can choose preferred AM/PM time slots).

#### OPTION 3: Imperial

Imperial teams commit to 96km (16 x 6km relay laps) over two full days (8 laps per day, with lunch breaks).

ALL TEAMS, regardless of selected distance category, race concurrently over available heats during the Wetdashe weekend. Choose your distance and preferred race day/s and then line up to race against the clock and each other, passing—and being passed by—rival relay teams. FGPC race timers track the performance of all crews and their distances simultaneously. 12 and 24km distance teams (“Chevron”) race over one heat with a race start on Saturday or Sunday morning or afternoon by request, first-come, first-served. 48km distance teams (“Walrus”) race over 2 heats, over one or two days and placed during mornings and afternoons by request. 96km racers (“Imperial”) race across all mornings and afternoons of the weekend. Regardless of distance, rosters must be comprised of 9 to 12 pre-registered mixed paddlers. 18 paddlers are permitted providing they pre-register and pay an additional \$25 per paddler to cover costs of extra tech “Wetdashe” race shirts. Non-compliant mixed crews (e.g. with more men than women) can choose to race exhibition.

All pre-registered participants are eligible for prizes drawn over lunch breaks on both racing days. Interim results (and winners!) will be published after racing concludes after each day of racing.

**REGISTRATION DEADLINE: 1 NOVEMBER 2019.** VISIT [www.fgpaddle.com/races](http://www.fgpaddle.com/races) or call 778.432.3472. Rosters are required once registration is received and payment of fees has been made. Rosters are due November 1, 2019 to allow for tech race shirt production in requested sizes. We cannot guarantee T-shirt quantities and sizes for rosters received after November 1, 2019. Crews with late rosters (last minute changes excluded) submitted after 10 November will be charged an additional 15% admin fee.
